EVERYDAY BRILLIANCE

Peak performance from discovery to delivery

DWK LIFE SCIENCES
DURAN WHEATON KIMBLE

EVERYDAY BRILLIANCE

We support the brilliance behind the drugs we all depend on. Our trusted glassware and plasticware enables scientists to test the limits of possibility, providing you with the quality and performance required to deliver reliable results. Our scalable packaging solutions eliminate second-guessing and adapt to your needs at every stage. We are always there, across every setting, with service as dependable as the glass we've spent 130 years perfecting. **With products and people you can always count on, we make you and your results shine every time.**

EXPLORE MORE ON OUR WEBSITE

Manufacturing brilliance since 1887

DURAN®

DURAN® is the leading premium brand for laboratory glassware made from German-engineered borosilicate glass 3.3, complying with DIN/ISO standards. With over 130 years of manufacturing expertise and an unwavering commitment to consistent, reproducible quality, DURAN® provides reliability and safety in your lab and pharmaceutical applications.

WHEATON®

WHEATON® delivers premium container solutions backed by decades of expertise in glass and plastic manufacturing and customization. With tailored-made packaging solutions and value-added services, WHEATON® simplifies your workflows and sourcing, meeting your unique requirements.

KIMBLE®

KIMBLE® is the trusted brand for laboratory glassware made from borosilicate glass and soda lime. It offers the most comprehensive range of laboratory glass products for scientific applications, mainly manufactured to ASTM standards.

DISCOVER

Brilliance is at the heart of every breakthrough, and our glassware and plasticware are designed to support yours daily. Our reliable products allow you to stay focused on what truly matters: discovering the next vital compound. Our pharma-specific solutions are tailored to your needs and work tirelessly in the background, so you can make life-changing discoveries. We understand the demands of the R&D lab and provide consistent, trustworthy solutions that let your results shine.

Streamline your R&D lab workflow with precision glassware and plasticware solutions.

DISCOVER Highlights

DURAN® YOUTILITY Bottles
Conveniently store buffers and solutions in ergonomic, lightweight bottles with an efficient labeling system.

DURAN® Original Bottles
Laboratory bottles with GL-thread, known for their consistent quality and meeting stringent international pharma standards.

DURAN® HPLC Reservoir Bottles
Enhance lab efficiency with an optimized conical base design for less waste and continuous mobile phase supply.

DURAN® GL 45 Hydra HPLC Purging Bottle
Safely manage solvents with 5 GL45 necks, minimizing VOC escape and spillage, while saving storage space.

DURAN® Autoclave Bottles & Caps
Enables automatic steam venting during sterilization and creates a hermetic seal, making it ideal for autoclaving and storing anaerobic media.

DURAN® TILT Media Bottle
Featuring a unique 45-degree position designed for effortless pipetting in safety cabinets, glove boxes, and Isolators.

DURAN® Graduated Cylinders
Achieve precise measurements with Class A/B tolerances and a range of certificates for pharma regulatory compliance.

DURAN® Volumetric Flasks
Deliver precise measurements with Class A/B tolerances and amberized options for sample safety.

Shine in every aspect of your lab work with our comprehensive range of innovative products. From precise measurements to ergonomic design, each of our products is crafted to elevate your research. With solutions that deliver safety, efficiency, and reliability, we empower you to achieve brilliant results every day.

WHEATON® CELLine™ Flask
Maximize antibody and protein yield with an efficient, multi-harvest solution for cost-effective bio-production.

DURAN® Baffled Flasks
Boost cell cultivation in microbiology and fed-batch culture with baffles enhance aeration and nutrient absorption.

WHEATON® CELSTIR® Spinner Flasks
Optimize cell culture with adjustable impeller and multiple ports for optimal cell viability and control.

WHEATON® CryoElite Tissue Vials
Preserve your valuable biological specimens in wide-mouth, low-profile containers that conform to DOT and IATA regulations.

WHEATON® Polypropylene Vial Racks
Improve R&D workflows with stackable, easy-to-clean and autoclavable vial racks with alphanumeric indexing.

WHEATON® CompletePAK Sterile Components
Enhance the efficiency of drug discovery and compounding with ready-use vial kits.

MANUFACTURE

Since 1887, we've been committed to minimizing your risk and supporting your manufacturing excellence. Our glassware is manufactured onsite to exacting standards, ensuring clear-cut regulatory compliance and consistent product certainty. As your production scales, our reliable solutions deliver the consistency and peace of mind you need across all manufacturing stages.

Get clear-cut
regulatory compliance
in drug production.

MANUFACTURE
Highlights

BIOPHARMA PRODUCTION

DURAN® PURE Bottles
Deliver safe storage and shipping of APIs/HPAPIs with GMP in-process and packaging containers featuring best-in-class regulatory support.

DURAN® Original Bottles
GL-thread bottles and closures developed for the requirements of GMP manufacturing in the pharmaceutical and biotech industry.

DURAN® GLS 80® Laboratory Bottles
Access contents easily with a wide neck that allows easy filling and pouring and more precise transfer of viscous liquids or powders.

DURAN® protect+ Plastic-coated Bottles
Store and ship APIs/HPAPIs safely with durable glass bottles with plastic coating which minimizes risks from broken glass.

WHEATON® CELSTIR® Spinner Flask
Optimize cell culture with adjustable impeller and multiple ports for optimal cell viability and control.

WHEATON® Roller Racks
Achieve optimal cell culture results for vaccines and antibody production with adjustable RPMs, intuitive touch screen and remote monitoring.

Optimize every stage of your drug manufacturing process and reduce risk with specific solutions for biopharma production. From precise measurement in QC labs to safe storage in bioprocessing and seamless integration into automated workflows, our solutions deliver the quality, safety, and efficiency you need to perform brilliantly every day.

QUALITY CONTROL

DURAN® HPLC Reservoir Bottles
Enhance lab efficiency with an optimized conical base design for less waste and continuous mobile phase supply.

DURAN® GL 45 Hydra HPLC Purging Bottle
Safely manage solvents with 5 GL45 necks, minimizing VOC escape and spillage, while saving storage space.

WHEATON® Chrom Vials, Inserts & Closures
Increase your efficiency with a broad range of high-precision vials & closures.

DURAN® Volumetric Flasks
Deliver precise measurements with Class A/B tolerances and amberized options for sample safety.

DURAN® Graduated Cylinders
Achieve precise measurements with Class A/B tolerances and a range of certificates for pharma regulatory compliance.

DELIVER

We offer reliable, scalable primary packaging solutions specifically designed for Fill & Finish applications. Manufactured to meet the highest regulatory standards, our solutions provide the safety and integrity of your products from start to finish. With reliable built-in scalability, we support your needs, whether handling small-scale production or preparing for commercial distribution, giving you the flexibility to grow while maintaining compliance and quality.

Optimize Fill & Finish with scalable primary packaging solutions.

DELIVER
Highlights

PHARMA

WHEATON®
Injection Glass Vials
Protect your injectable drug with Type I tubular glass vials, engineered to enhance workflow and flexibility.

WHEATON® Injection Stoppers
Simplify your sourcing with our comprehensive selection of pharmaceutical grade rubber stoppers available in a wide range of styles, materials, and treatments.

WHEATON® Injection Seals
Seal your vials with our extensive range of aluminum closures to provide a full primary packaging solution available in flexible pack sizes, colors, and design.

RayDyLyo® Snap Caps
Simplify your capping process with RayDyLyo snap caps designed for parenteral applications. Suitable for aseptic small batches, clinical trials, and robotic fill & finish operations.

WHEATON®
High-recovery Vials
Maximize recovery of radiopharmaceutical samples thanks to a tapered and conical interior design.

Stevanato® Group EZ-fill® Vials
Maximize efficiency with ready-to-use vials in trays or nest and tub configurations, delivering aseptic fill operation flexibility, simplifying and derisking workflows and enhancing patient safety.

Custom Ready-to-use Solutions
Improve your workflow while minimizing TCO (total cost of ownership) with RTU custom solutions designed to meet your specific operational requirements.

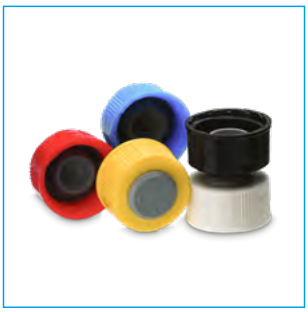
Achieve operational efficiency and flexibility in your Fill & Finish processes with DWK's reliable, scalable primary packaging solutions. Our end-to-end drug containment offerings provide patient safety and product integrity across the entire drug lifecycle. With flexible services tailored to your specific vial specifications and pack formats, we simplify sourcing by providing complete packaging solutions, supporting both small and large production needs. Backed by expert regulatory and technical support, our products help streamline your workflow while ensuring compliance and quality.

DIAGNOSTICS

WHEATON®
Diagnostic Glass Vials
Eliminate the need for crimping tools with a screw thread design that supports sample security by providing impact resistance.

WHEATON®
Diagnostic Plastic Vials
Lightweight alternative to glass for the storage of diagnostic specimens, antibodies, proteins, nucleic acids, enzymes, and substrates.

WHEATON®
Lyophilization Stoppers
Protect your diagnostic product with extremely high chemical purity and low gas permeability stoppers.



WHEATON®
Screw Thread Closures
Designed to fit with lyophilization and injection stoppers for diagnostic vials when freeze-drying processes are required.

WHEATON®
Leak-Proof Bottles
Deliver content protection with DOT and ICAO air transportation validated Leak-Proof Bottle with superior double seal closure.

WHEATON® Glass Dropper Bottles & Assemblies
IVD primary packaging solution for blood grouping reagents featuring controlled drop size for precision dispensing.

WHEATON®
Plastic Dropper Bottles
Deliver convenient, controlled dispensing of reagents in diagnostic kits.
