

Recycle your pipette tip boxes

Supporting more sustainable science

Making recycling simpler

At Thermo Fisher Scientific, we understand the critical importance of environmental sustainability and responsible waste management in today's scientific community.

Single-use plastics play an essential role in the laboratory, yet their extensive use can pose a waste challenge.

Our pipette tip box recycling program provides you with a simple and effective solution for recycling.* Simply collect your pipette tip boxes and tip inserts, and our convenient courier collection service will take care of the rest.

Recyclable materials: Clean, non-biohazardous, and empty plastic tip boxes and rack inserts

Prohibited materials: No pipette tips, plastic bags, or shrink-wrap. No general lab waste or other recyclable materials.

Tip box brands approved for recycling (only listed brands may be returned): Thermo Scientific™ ART™, ClipTip™, Finntip™, Finntip™ Flex, SoftFit-L™, and Fisherbrand™ SureOne™ pipette tip boxes

* Pipette tip boxes and rack inserts are recycled into based materials PP#5 that can be used in a variety of applications, like plastic lumber for park benches. Mainland UK only (England, Scotland, and Wales only; excludes Ireland and Northern Ireland).
